

# EPR Architects is looking for a talented **3D Visualiser / Artist** to join our London studio

EPR Architects is an award-winning practice with a well-established reputation for quality architecture, masterplanning and interior design thanks to our extensive experience delivering an array of building typologies across workplace, lifestyle and leisure sectors.

We are looking for an exceptional 3D Visualiser who is passionate about design and architecture to join our London studio. You will be asked to create high quality architectural visuals to support teams in design development, from competitions through to all project stages. Creativity and an artistic eye for design detail is essential, along with the ability to capture the architectural vision within a single image. You will have a leading role in developing an in-house style of imagery and will support other design team members in using visualisation software.

Proven experience in 3DS Max and V-Ray together with excellent Adobe Photoshop skills is essential. Additional knowledge of Rhino, Revit, Enscape, Grasshopper, and virtual reality is also an advantage.

To apply please submit a cover letter together with a CV and a portfolio of your relevant images (either in a PDF or with a URL link).
