What is Organisational Psychology?

- An interdisciplinary subject, bridging psychology and organisational behaviour
- The scientific study of human thoughts, feelings or behavior in the workplace
- Application of psychological theory to business, labour markets, organisations or workplace policies

Why Does it Matter?

- The Association for Business Psychology:

“Business Psychology is the study and practice of improving working life. It combines understanding of the science of human behaviour with experience of the world of work to attain effective and sustainable performance for both individuals and organisations”.

- It is an **applied science** investigating how to make people and organisations more effective.
- It allows **cross fertilization of experience** from business into psychology, and of academic knowledge and rigour from psychology into business.

- The workplace is facing major challenges:

- Talent Shortages.
- Skills Development.
- Hybrid and flexible working.
- Globalisation.
- Automation/AI.
- Employee stress and well-being.
- Diversity & Inclusion.
- More layers; more complexity.

- The need for business psychologists to help meet these challenges has never been greater. . .

What does the degree cover?

Applying psychological theories and principles to organisations and businesses with the view of enhancing individual, organisational or business outcomes

Our MSc has three main themes

Enhancing theoretical knowledge – social, organisational and business psychology

Learning practical skills and how to apply theory to solve organisational or business issues

Research skills – design, methods, analysis, evaluation

Teaching & Delivery

Kent Systems

- Kent Vision for updating your information, your marks, individual learning plans (see student support services), your transcripts

- Moodle, to see your modules, readings, submission points, feedback files & marks, asking questions

- PRESTO for your timetable and for attendance or an absence

Presto Timetable

Shall we try accessing your Presto Timetable?

Step 1:

Scan the QR code on this slide to open Presto.

Step 2:

You will see your timetable. Click the **calendar symbol** to view future dates.

Step 3:

To record your attendance:

- Select the event you are attending.
- Enter the **code your lecturer or adviser provides** at the start of the session.
