

Does your child have a learning disability?

Does your child display behaviours that are challenging?

Is your child aged between 4 and 15?

Are you awaiting service support??

Then you might be interested in taking part in a new project
from **Tizard Centre**:

**“Goals and Outcomes for Intervention (GO-for-IT)
Child and Family Views Project”**

*We want to find out what life is like for families with a child with behaviours that are challenging so that we can get better at providing good support. We will use a variety of **communication methods** to interview children and family carers about the **impact of behaviour that challenges** and things they would most like to **change in the future***

Participating families will receive a £20.00 voucher

If you would like to find out more about how you and/or your child can take part please contact **Dr Nick Gore for an informal chat or** to request an information pack (tel: 0127 827755 or N.J.Gore@Kent.ac.uk)
