HOW THE SCHEME WORKS

Our internships provides undergraduates with the opportunity of paid work with Bedfordshire Police. During their internships, undergraduates will immerse themselves in the day to day work of a team whilst working on their specialised work package.

Interns will join us across a number of business areas and interns will be allocated a line manager. Performance will be assessed against our competency framework and regular performance reviews are carried out.

WHAT OUR PREVIOUS INTERNS SAID

"The internship has been an experience that is totally and truly unforgettable. It has given me the opportunity to pick up so many skills, some of which were totally unexpected. I've had the chance to work in so many areas of policing and meet some truly fantastic people."

Obinna Okoro, London Luton Airport Policing

"The highlight of my internship has definitely been the amount of opportunities I got to experience, throughout the year. This includes all the attachments I took part in and being able to network with other people within the force, by attending support groups. It gave me a lot more confidence and insight in what the real world looks like in different areas of working with the Police, as well as external partners."

Caterina Ceravolo, Professional Standards Department

"My most memorable attachment was the Dog Unit Training. The team were really amazing and I was fascinated with how efficient the dogs were at finding items and how the dogs reacted to different tracks. This was a really great day and I also got to apply my university knowledge of psychology as they used conditioning within the Dog Training."

Ellie Rogers, Force Executive

"I have thoroughly enjoyed every aspect of this internship. I couldn't imagine a better way to experience and gain insight into the career I wish to pursue. I've learnt new writing techniques and developed a better understanding of how to analyse data."

Caroline Miller, Hate Crime Unit
