

Royal College of
General Practitioners
SOUTH EAST THAMES FACULTY

The Royal College of General Practitioners South East Thames Faculty in association with the Allergy Academy

Allergy in Adult Patients

Wednesday, 13 June 2018

Holiday Inn London-Gatwick Airport, Povey Cross Road, Horley RH6 0BA

This is the second in our series of joint study days hosted by the Allergy Academy and the Royal College of General Practitioners. The focus will be allergic disease in adults, addressing common issues faced in general practice, including drug allergy; allergies and asthma; allergic rhinitis; urticaria; and food allergies. This day will complement the earlier day on childhood allergies, but works equally well as a stand-alone study day.

Aims and Objectives:

- ☐ To distinguish and manage allergic disease amongst adults
- ☐ To understand the major groups of drug allergies amongst adults
- ☐ To institute urticaria management and determine when referral is warranted

Who should attend?

- ☐ General practitioners
- ☐ GP registrars
- ☐ Foundation doctors
- ☐ Practice Nurses
- ☐ Community Nurses
- ☐ School Nurses
- ☐ Health Visitors

Delegate Fees: £10.00 (all delegates)

[Book](#) early to avoid disappointment
