Learning objectives and overview of session	Event Sponsors
<p>Overall Aims:</p> <ul style="list-style-type: none"> To share and update how clinical digital technology and focusing on high impact areas can release valuable time as well as improve care quality, safety for busy clinicians and supportive team members. Perinatal Mental Health and Obesity practical and pragmatic approaches in General Practice. <p>Issues:</p> <ul style="list-style-type: none"> Are initiatives such as the GPFV High Impact Activities and Priorities worth the effort? Can the Digital Technology actually deliver its full potential to help busy clinicians and patients? Electronic Referral Systems (eRS) for all referrals, will this work in our daily practice and rural areas? Perinatal Mental Health: How confident are you in detecting and managing this common scenario? Obesity: Whilst we are reaching a global epidemic, are we professionally approaching this with the due sensitivity? Mental Health Support: Long Term Conditions and MH together mean higher mortality, what can we do to help?
