

Dear Students and Staff,

We are calling for participants to take part in an exciting study that involves completing a set of tasks, driving a powered wheelchair, in a **Virtual Reality** environment and in real-life.

The study is ultimately intended to benefit people that require a wheelchair and is estimated to run over two sessions, two days apart, lasting for a total of approximately 2 hours. During the VR session, the participants' heart rate will be measured with a chest strap.

After each session, participants will fill out a set of questionnaires.

As a compensation for your time, you will be entered in a draw to win one of the following three prizes:

**First Place:** £25 Amazon Voucher.

**Second Place:** £15 Amazon Voucher.

**Third Place:** £10 Amazon Voucher.

If you are interested or have any questions, please contact Chantal Zorzi ([cz77@kent.ac.uk](mailto:cz77@kent.ac.uk)).
