

*A picture starring Deanna Durbin  
has always been an Event*

In presenting Miss Durbin in W. Somerset Maugham's "Christmas Holiday," Universal feels that the occasion becomes doubly significant because it represents Miss Durbin's first really great dramatic role.

Not only was Universal most careful in the selection of a property which would give Miss Durbin the opportunity to demonstrate her hitherto unrevealed dramatic talents, but Universal felt the further responsibility of securing a co-star, Gene Kelly, who has recently attained tremendous popular acclaim.

Universal is proud of "Christmas Holiday." It doffs its hat to Miss Durbin and Mr. Kelly for their sterling performances, and extends its compliments and appreciation to everyone who contributed to the ultimate success of the picture.
