

The Royal Institution Mathematics Masterclasses

The University of Kent is hosting the Royal Institution
Mathematics Masterclasses for Year 12 students

Ever wondered how data science is used to fight
disease?

Or how the billion-dollar algorithm behind
Google works?

Or whether pure mathematics and physics are
as different as they seem?

If you have an enthusiasm and interest
in mathematics, then speak to your
Maths teacher about joining in online
and finding out!

Saturday January 25th, February 1st
and February 8th 2025
Online, 10:15–12:00.

The Royal Institution Mathematics Masterclasses

Google's PageRank algorithm

Dr Bas Lemmens

Alternating sign matrices and square ice

Dr Clare Dunning

Clinical trials & data science

Dr Owen Lyne
