

Visiting Artists Talks  
**Adam Dix**

University of  
**Kent**

School of Music  
and Fine Art

Thursday March 6th 6pm  
Bridge Wardens College  
BWC 102

The Sentinels 2012

Adam Dix's work concerns itself with signs of communication technology and our own desire to communicate. His exploration and personification of these devices of modern information transmission, explore the comprehension of technology on a humanistic level.

By focusing on the abundance of communication devices in contemporary society, his work discusses 'allure' for the user and is further exaggerated by appropriating the ritualistic, ceremonial traits and imagery often found in the genres of science fiction, nationalism and religion.

**Adam Dix Profile:**
