

# PARTICIPANTS WANTED!

- ◆ Are you a family carer?
- ◆ Do you live in Essex, Kent, or Surrey?
- ◆ Do you manage the personal budget for an adult with intellectual disabilities or autism?

**We want to hear from you!**

Researchers at the Tizard Centre and PSSRU at the University of Kent are conducting a study about the experiences of family carers who manage personal budgets for people with intellectual disabilities and/or autism who have moderate to high levels of support need.

We would like to speak with family carers to understand more about your experiences of managing personal budgets, such as what information and support is available to you and the process of planning and managing support. This would take about 30-45 minutes and can be face-to-face or via phone. As a thank you, you will receive a £20 Amazon voucher for taking part.

If you think you would be interested in taking part in the study, or simply want to find out more, please contact a member of the research team who will be happy to talk to you and provide more information about the research:
